Brandeis School of Business and Economics	Waltham, MA
Candidate for Master of Science in Business Analytics (STEM-Designated)	01/2026 - 05/2027
Jain University	Bangalore, India
Bachelor of Business Management - Data Science and Analytics, 3.55 GPA	09/2021 - 11/2024

TECHNICAL SKILLS

Programming Languages: Python, Java, SQL

Computer Software: Advanced Microsoft Excel, MS-Word, Tableau, Power BI, Eclipse IDE, Jira, PowerPoint,

Analytics: Data Warehousing, Data Visualization, Predictive Modeling, Marketing Analytics, Data Mining, Exploratory Data Analysis, Machine Learning

WORK EXPERIENCE

Schneider Electric AI field project - Consulting	Waltham, MA
Brandeis Field Project Intern	05/2026-08/2026
• Evaluated Physical AI, Robotics, Smart Sensors, and predictive- maintenance opportunities across power, grid and data-center technologies • Conducted market sizing, competitor benchmarking, real-world use-case research, and partner screening to identify high-fit growth opportunities • Developed strategic partner recommendations covering value exchange, partnership structure, scalability, and integration with Schneider Electric's EcoStruxure ecosystem	
Endurance Technologies Ltd.	Aurangabad, India
Data Analyst Intern	01/2025 - 04/2025
• Designed production traceability GUIs using Java (Eclipse IDE) and SQLite to support real-time test-track data logging; eliminated manual data entry across the production floor • Automated production tracking and record storage workflows; improved operational visibility by 50% and enabled faster bottleneck detection for plant supervisors and developed automated billing logic on track usage rates and duration	
Operations & Supply Chain Management – Family Business	Aurangabad, India
Assistant manager	05/2024 – 11/2025
• Oversaw inventory management, including stock tracking, demand monitoring and replenishment planning • Handled warehouse operations, including loading/unloading coordination, goods segregation, and dispatch scheduling for timely deliveries • Coordinated with suppliers, transport vendors, and internal teams to ensure smooth procurement and distribution flow and supported business decision-making by analyzing sales trends, stock movement, and demand fluctuations	

ACADEMIC PROJECTS

Brandeis University	Waltham, MA
Policy Shock and Mobility Behavior	01/2026 - 04/2026
• Analyzed Advan Dataset to track down mobility behavior and built Tableau geospatial visualizations to assess the impact of September 2025 H1-B Policy change on Boston-Cambridge tech and university areas	
Predicting Medical Insurance Charges R, Multiple Linear Regression	01/2026 - 04/2026
• Built a multiple linear regression model in R to analyze the impact of age, BMI, smoking status, children, sex, and region on U.S. medical insurance charges • Conducted EDA, significance testing, and model evaluation using Adjusted R² and F-statistics, identified smoking status as a key driver of healthcare costs
